# 3G mobile data

## Backup VSAT communications

3G mobile data packages and routers provide a secondary option for internet access when you need it.

## How does it work?

A high speed 3G router provides wireless broadband internet access for multiple computers, using a single 3G Network SIM Card.

## How do I use it?

It's as simple as flicking a switch to activate 3G on your network.

Location	France	Italy	Spain
Data allowance	3GB	20 GB	10 GB
Over-usage charge	Fair usage policy	£0.95 / MB	Call us
One-time setup fee	£100.00	£100.00	£100.00
Price (per month)	£100.00	£100.00	£90.00

## 3G data & equipment providers

NDB has partnered with several data & equipment providers to allow us to give the best coverage at the best available prices. Prices, rates and speeds are location and provider dependant – please contact us to find out more.

the **simple** choice

## 3G mobile data Equipment & package details.
