Apple provisioning

*We know you love Apple ...
... so we created a service for that*

Get the advice and prices you want, from the experts with the knowledge.
Our service allows you to purchase Apple equipment and also create a new Apple network.
This service allows you to take your love for Apple to a completely new level.

- ✓ **Apple equipment** - Purchase iMacs, iPads, iPhones and everything else – directly from NDB
- ✓ **Apple & Microsoft integration** - Integrate both Apple and Microsoft on your network
- ✓ **Learning curve** - Significantly decreased as many people have already had the "Apple experience"
- ✓ **Safety net** - Time Capsule backup devices and multi-server disks give ample failover protection

- ✓ Apple equipment provisioning
- ✓ Directly available through NDB
- ✓ Pre-sales advice from specialists
- ✓ After-sales support
- ✓ Ultimate performance and power
- ✓ Faster start-up times
- ✓ Service Level Agreement for Support
- ✓ Monthly customised reports
- ✓ Integrate existing Windows technology
- ✓ Redundant storage and remote backup
- ✓ Detailed user guides and network documentation
- ✓ Network auditing service included
- ✓ Can be combined with our [web filtering service](#)

Take a bite
